PROFILE

Full Stack Web Developer with experience as a Business Systems Manager in the information technology field. Earned a certificate in Full Stack Web Development from the University of Pennsylvania LPS Coding Boot Camp where I honed skills in HTML, CSS, JavaScript, jQuery, Node.js and React.js. Recognized as a team player and hard worker, my focus is on meeting deadlines and getting the job done. In addition, I have managed developers giving me a unique perspective on scope and project management systems such as JIRA. I am excited to use my creativity, passion and skills to build meaningful web applications!
